The PEI Real Estate Association would like to thank everyone for their interest in the Pre-Licensing Course. As previously reported, the course is now in conjunction with Holland College. This is a recent change and means we are in a current stage of transition. Unfortunately, that also means there is limited information regarding the next course.

Once the current course concludes in November, the Association and Holland College will be working to make the necessary updates and adjustments in order to offer a new course in 2018. Further details will be released as information becomes available.

Until then, we encourage those interested to continue their research. A great way to start is by reaching out to local REALTORS® and Brokers to see what they say about trading Real Estate on Prince Edward Island. Also, check out the [PEI Government website](#) as they have further information on their requirements. You can also find the [Real Estate Trading Act](#), the provincial legislature in which Licensed Real Estate is governed. The [Canadian Real Estate Association's Website](#) is also a good resource to better understand organized real estate across Canada.

We thank you for your patience and interest.

Please Note:

Registration will not open until dates are finalized for the next session.
